Authorized Siemens Software Partner · Middle East
Abu Dhabi and Dammam

ABOUT US

# Engineering software, delivered by engineers.

NomuTech is an Authorized Siemens Digital Industries Software partner based in Abu Dhabi, with an office in Dammam, serving manufacturers, universities and research centres across the Middle East.

We help organisations choose, implement and get the most from Siemens Xcelerator software, from the first licence to full adoption. Our team works on site and online, in English and Arabic.

Abu Dhabi and Dammam

OUR TEAM

# Engineers with PhD and master's degrees.

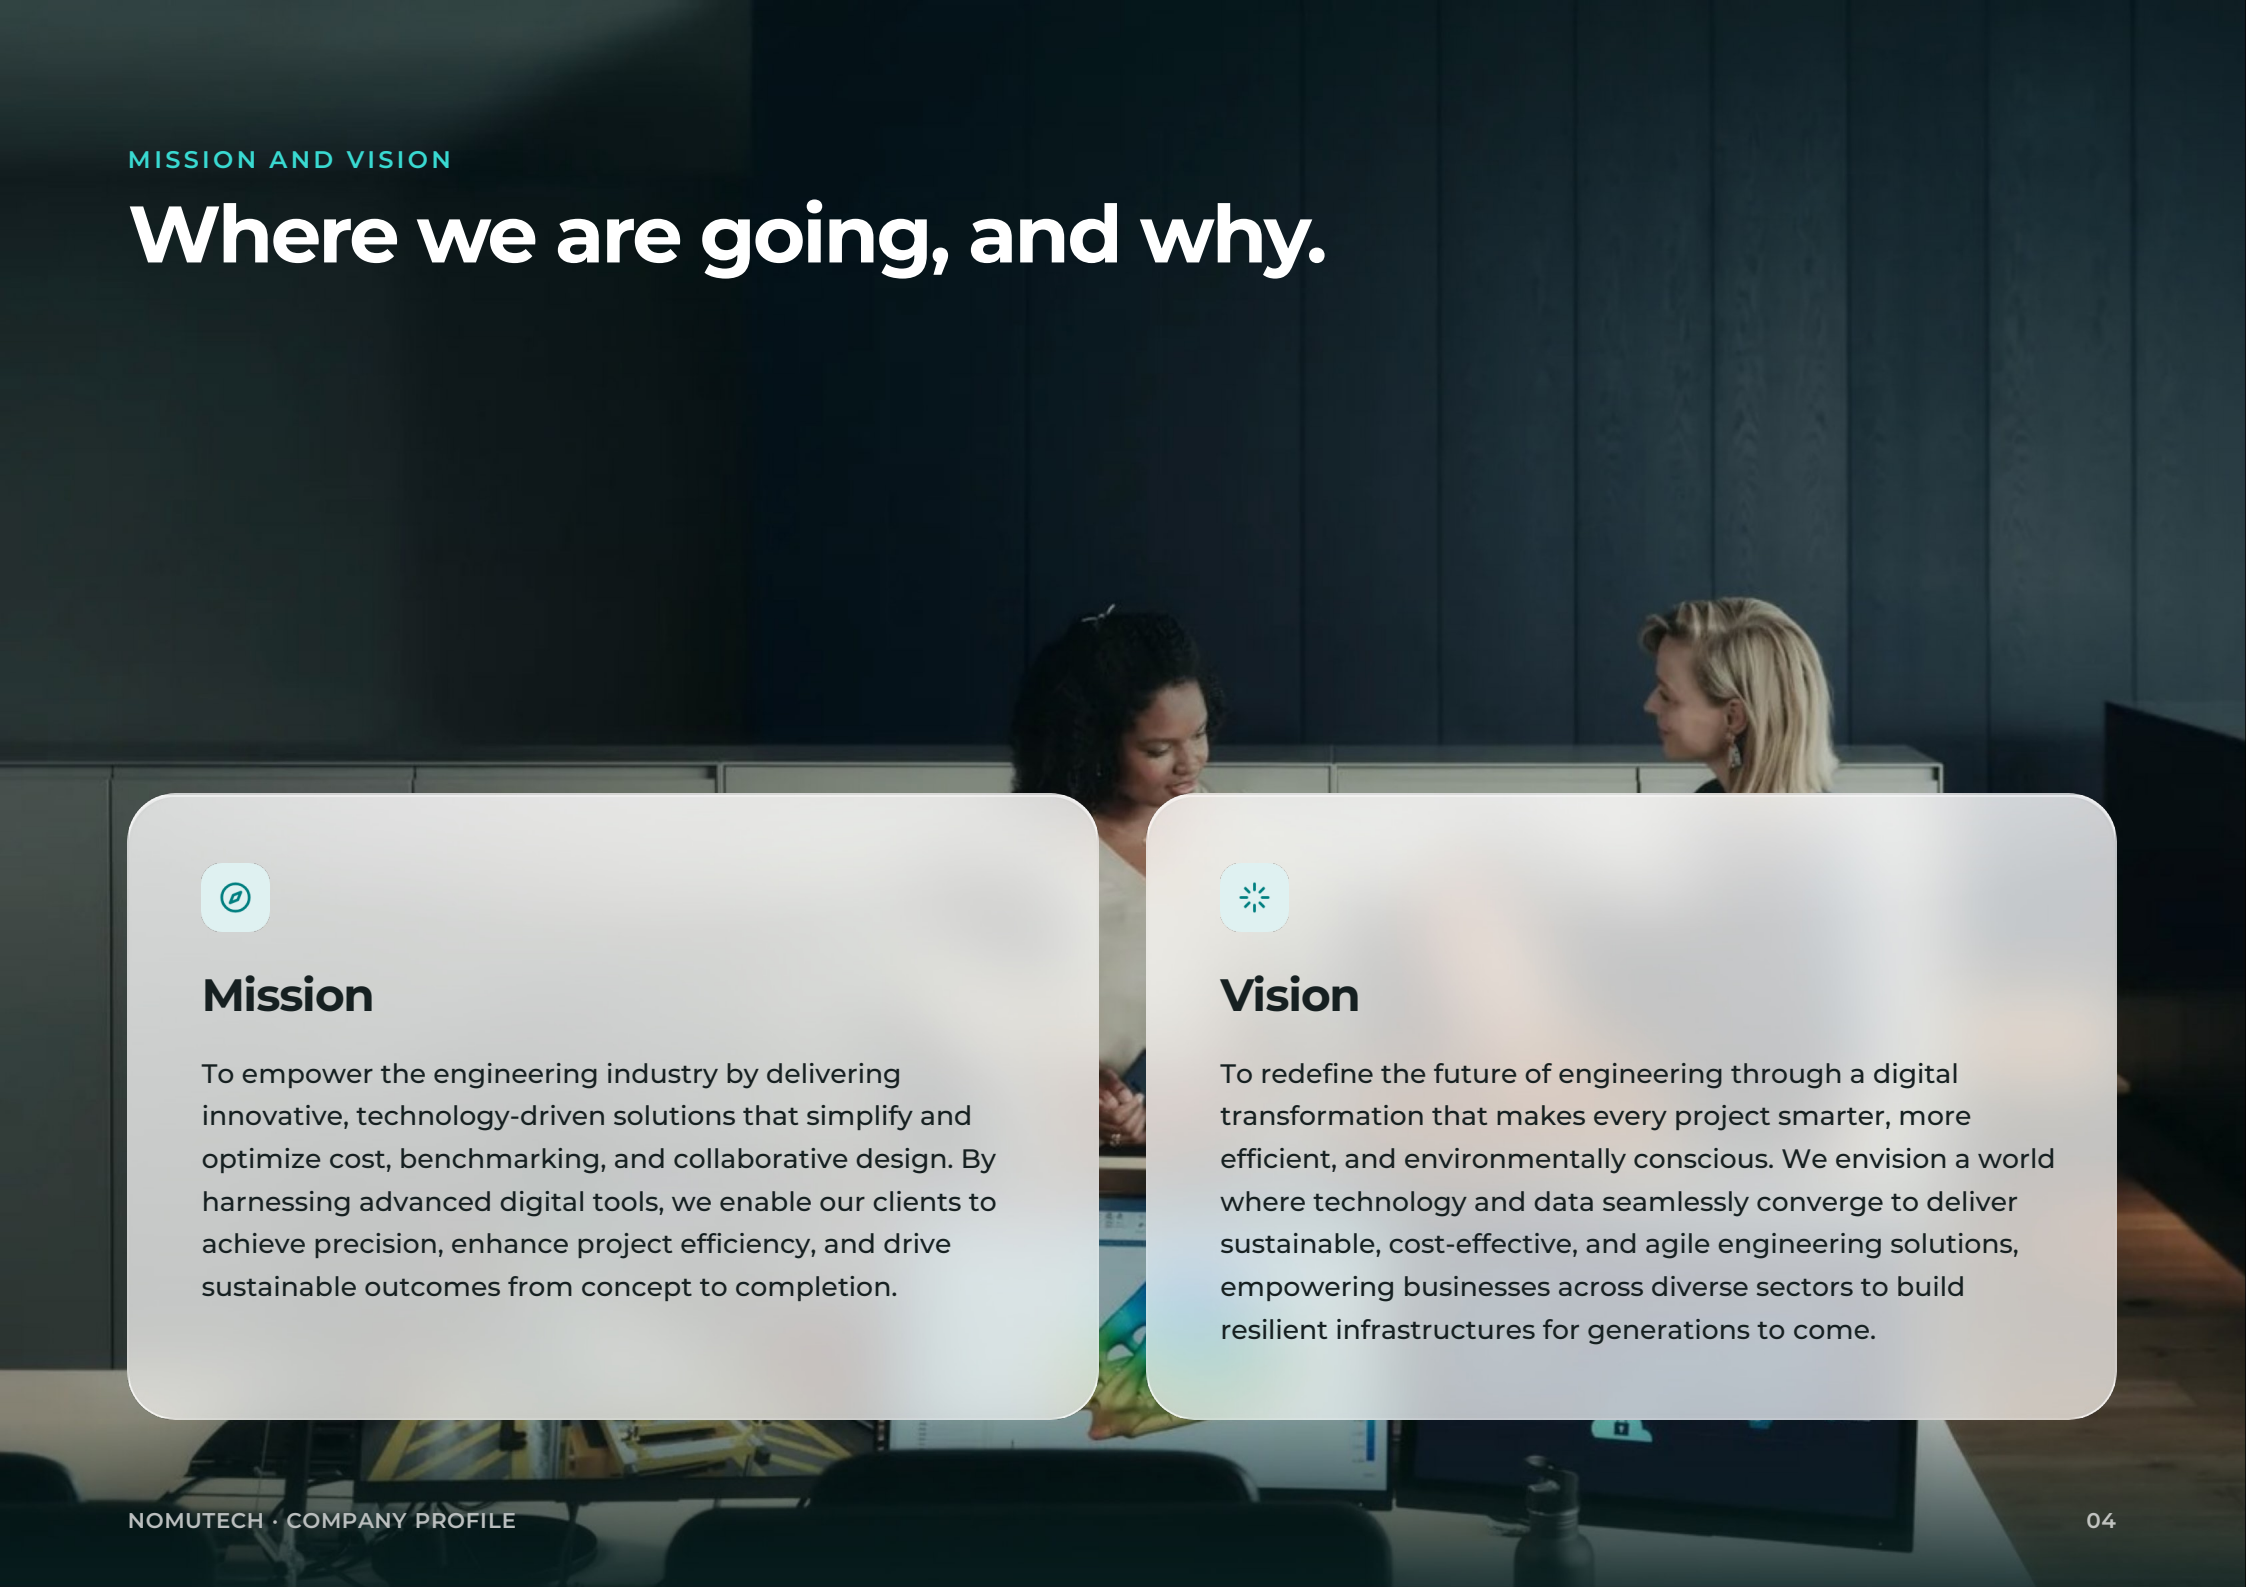

Our engineers hold PhD and master's degrees in engineering. We design, simulate and build, and we implement the tools we use.

PhD

Master's

MISSION AND VISION

# Where we are going, and why.

## Mission

To empower the engineering industry by delivering innovative, technology-driven solutions that simplify and optimize cost, benchmarking, and collaborative design. By harnessing advanced digital tools, we enable our clients to achieve precision, enhance project efficiency, and drive sustainable outcomes from concept to completion.

## Vision

To redefine the future of engineering through a digital transformation that makes every project smarter, more efficient, and environmentally conscious. We envision a world where technology and data seamlessly converge to deliver sustainable, cost-effective, and agile engineering solutions, empowering businesses across diverse sectors to build resilient infrastructures for generations to come.

WHAT WE DO

# Five ways we support engineering teams.

01

## Software distribution and development

Authorized Siemens Digital Industries Software partner, providing CAD, CAM, CAE and PLM solutions.

02

## Technical consultancy

Engineering support, including CAD design, FEA, digital twins and manufacturing solutions, plus custom website development with dashboards and analytics.

03

## Training and certification

Siemens Digital Industries Software training for students, educators and professionals in the Middle East.

04

## Artificial intelligence solutions

AI-powered solutions, including machine learning, predictive analytics and automation.

05

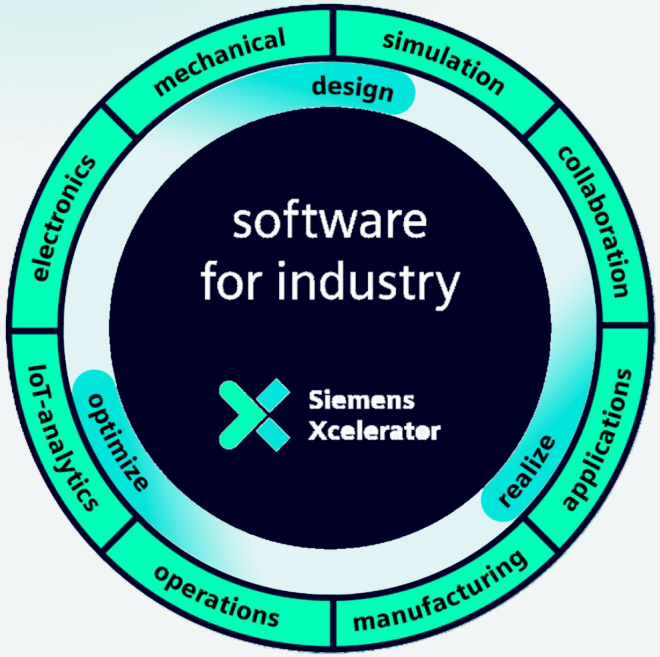

## Smart devices and computer hardware trading

Retail and wholesale of smart devices, computer hardware and IT accessories, plus high-performance computing and data processing equipment for enterprises.

SIEMENS XCELERATOR PORTFOLIO

# One portfolio, from design to production.

The Siemens Xcelerator portfolio, supplied, implemented and supported by NomuTech.

## Design

Designcenter NX · Designcenter Solid Edge

## Simulation and optimisation

Simcenter · HEEDS

## Product data

Teamcenter

## Manufacturing

Tecnomatix · NX CAM

## Cloud (X)

Designcenter X · Simcenter X · Teamcenter X

## Learning

Xcelerator Academy

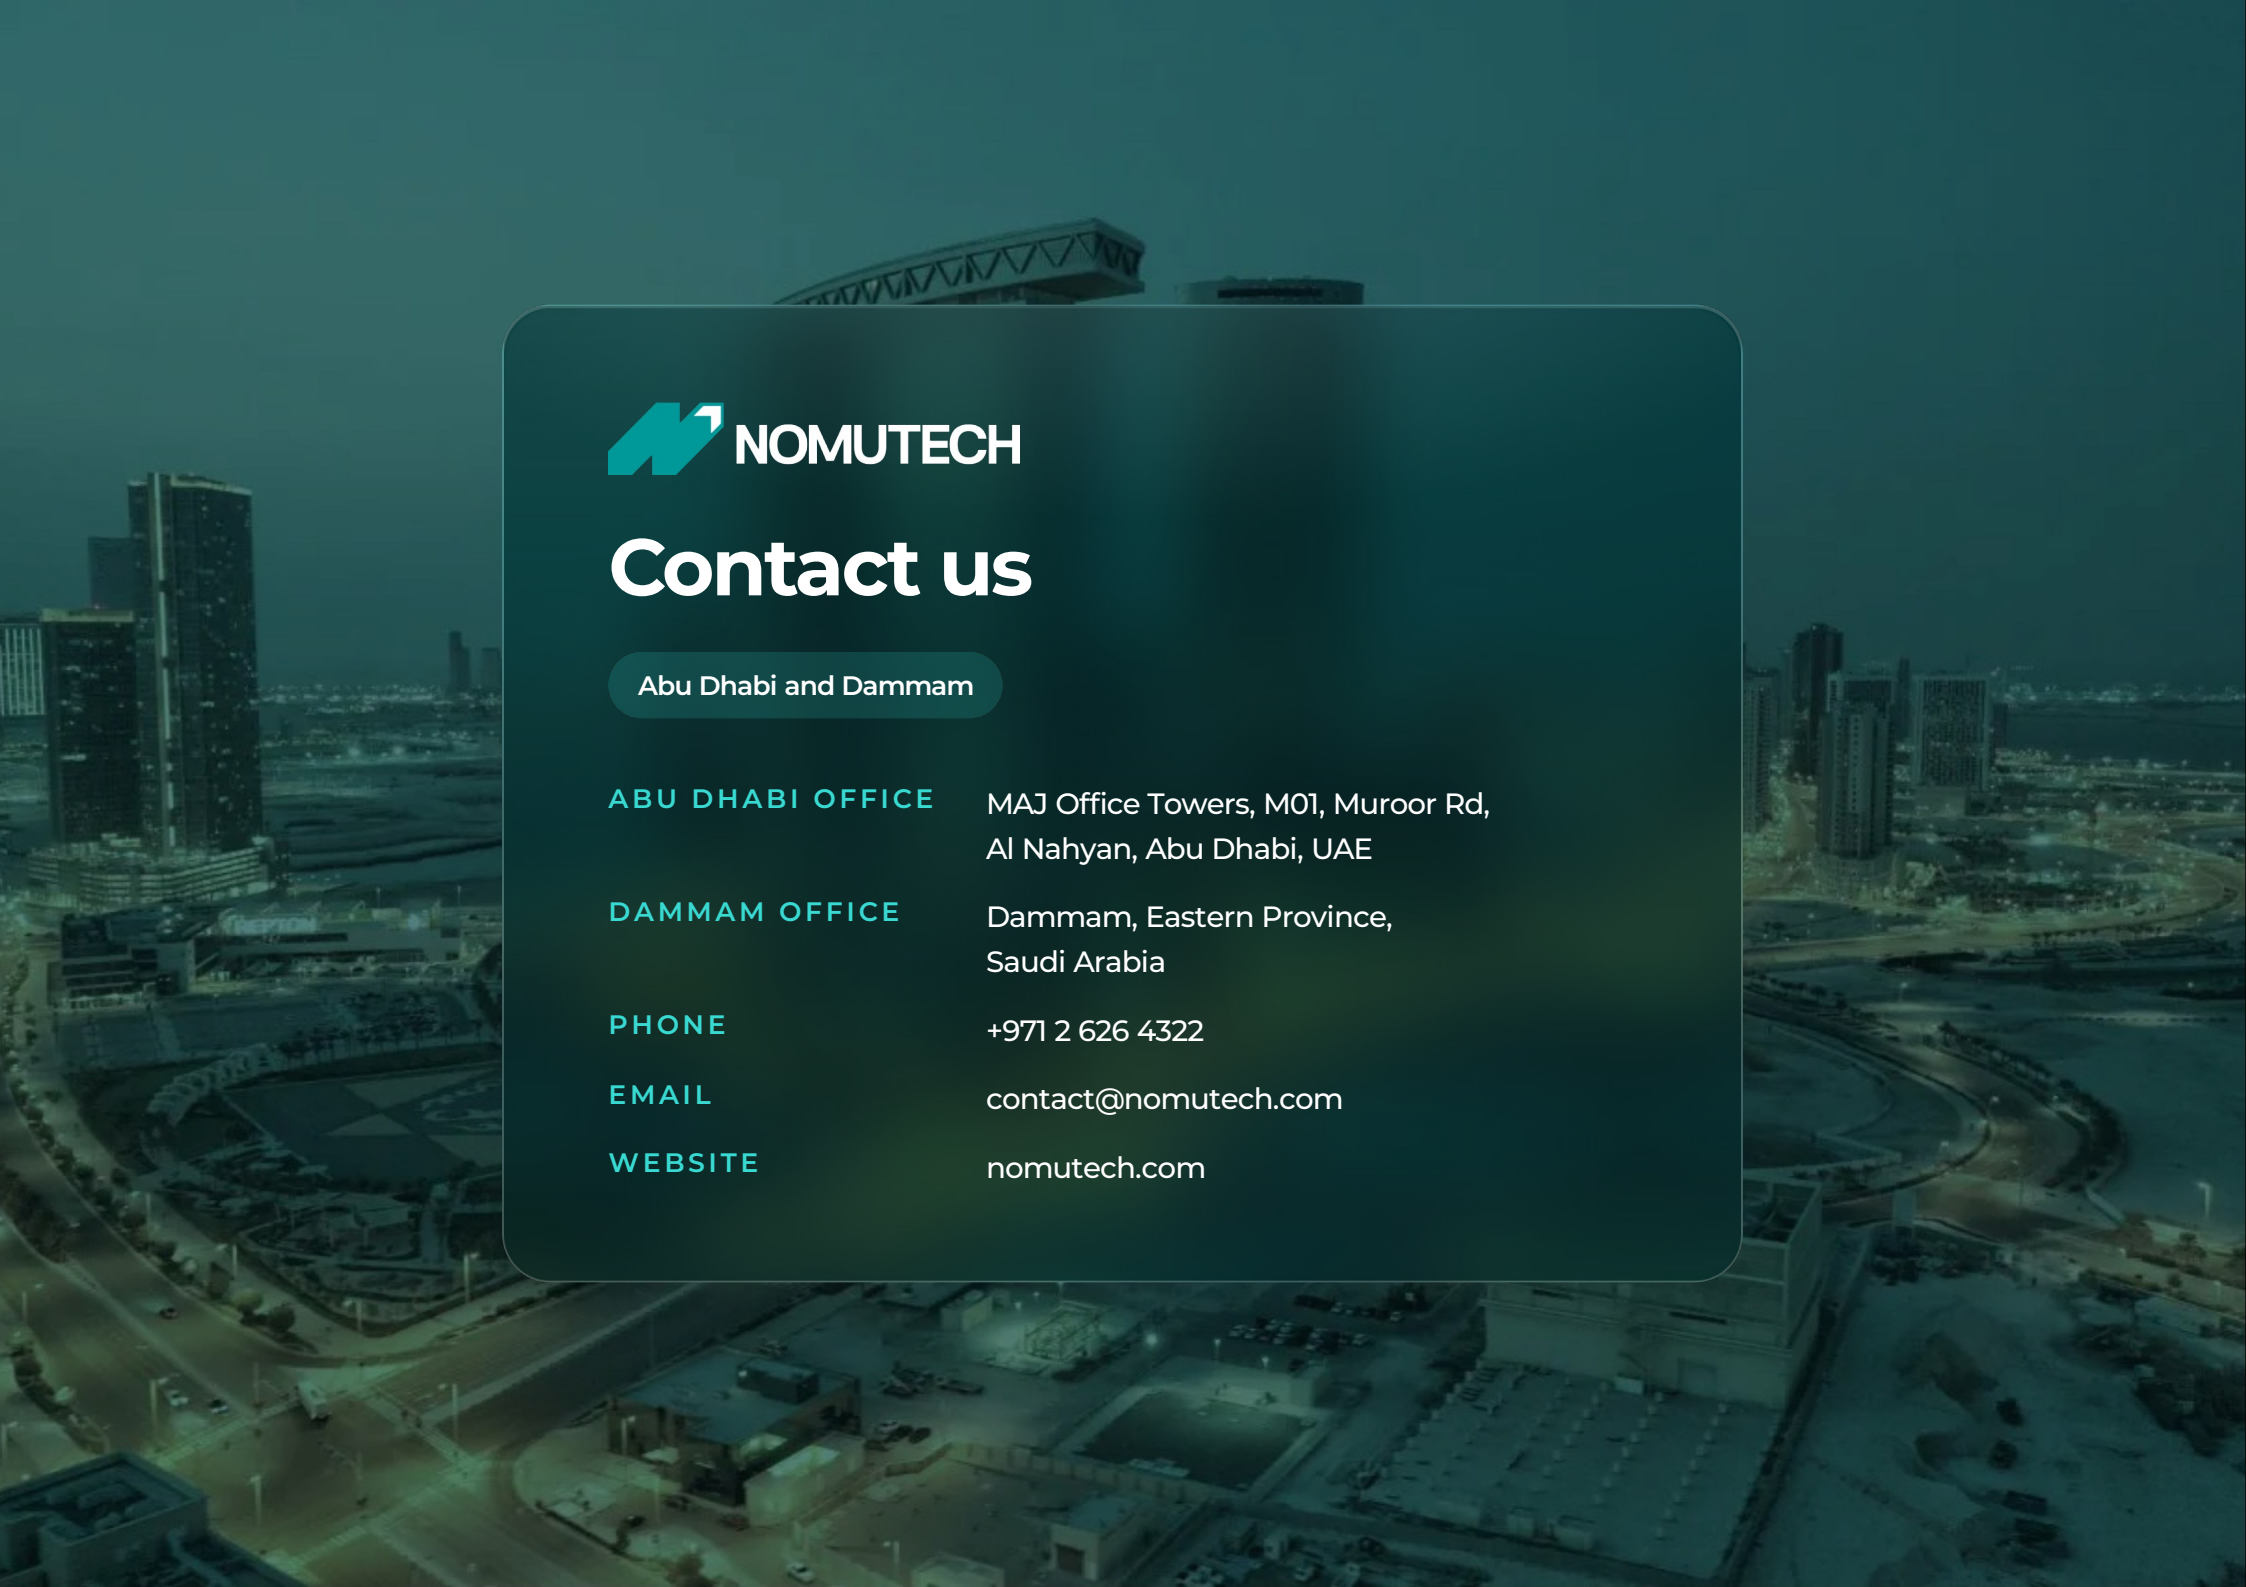

WHY NOMUTECH

# One partner, the whole way.

- Engineers with PhD and master's degrees, who implement the tools they use.
- One partner for the whole lifecycle: licensing, implementation, training and support.
- Offices in Abu Dhabi and Dammam, with support on site or online across the Middle East.
- Licensed software, and we show you how to raise and escalate cases with Siemens support.

## INDUSTRIES WE WORK WITH

- Aerospace and Defence
- Automotive and Transportation
- Energy, Oil and Gas
- Industrial Machinery and Equipment
- Electronics and Semiconductors
- Medical Devices and Pharmaceuticals
- Marine and Shipbuilding
- Consumer Products and Packaging
- Universities and Training Centres
